Why should you attend?

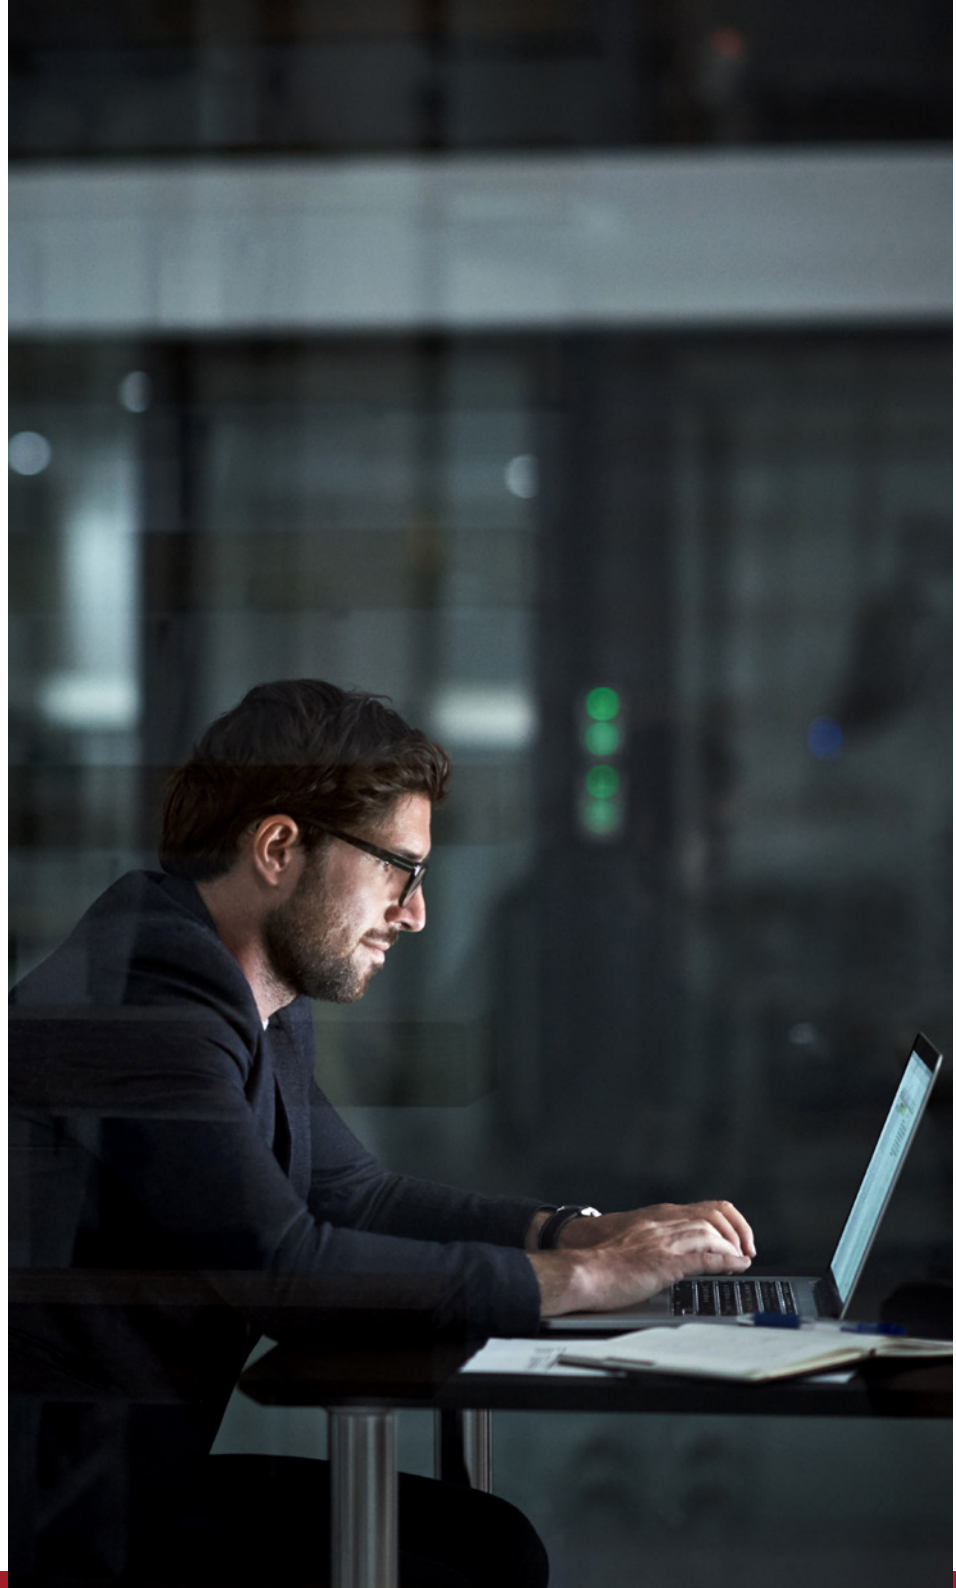

The PECB ISO 9001 Lead Auditor training course enables you to develop the necessary competence to perform quality management system (QMS) audits by applying widely recognized audit principles, procedures, and techniques. This training course combines the requirements of ISO/IEC 17021-1, the recommendations of ISO 19011, and other good practices of auditing and integrates them into a comprehensive methodology which enables you to successfully plan, conduct, and close ISO 9001 conformity assessment audits.

Apart from a theoretical basis, the training course also provides examples, exercises, and quizzes to help you practice the most important aspects of conformity assessment audits: interpretation of ISO 9001 requirements in the context of an audit, principles of auditing, application of audit methods, approaches to evidence collection and verification, leading an audit team, drafting nonconformity reports, and preparing the final audit report.

After attending the eLearning training course, you can take the exam. If you successfully pass, you can apply for a "PECB Certified ISO 9001 Lead Auditor" credential, which demonstrates your ability and practical knowledge to audit a QMS based on the requirements of ISO 9001.
